Dear Sir/Madam:

As the below named inventor, I hereby declare the following:

I verily believe the original patent to be wholly or partly inoperative or invalid by reason of the patentee claiming more or less than he had the right to claim in a patent. More specifically, patentee has the right to claim presently amended claim 1 which shifts the scope of the claim to add certain structural features but eliminates other structural features.

Every error in the patent which was corrected in the present reissue application, and is not covered by a prior Oath/Declaration submitted in this application, arose without any deceptive intention on the part of the Applicant.

The undersigned being warned that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements and the like may jeopardize the validity of the application or document or any registration resulting therefrom, declares that all statements made of his own knowledge are true; and all statements made on information and belief are believed to be true.
